

## COMMUNITY LIAISON COMMITTEE MEETING #2

### BLACK CREEK TRIBUTARY BEHIND APPLETREE COURT AND SEELEY DRIVE EROSION CONTROL AND SLOPE STABILIZATION PROJECT CITY OF TORONTO

Toronto and Region Conservation Authority (TRCA) has been working through the *Class Environmental Assessment* process for *Remedial Flood and Erosion Control Projects* (amended 2013) in order to address riverine and valley slope erosion behind a tributary of Black Creek between Seeley Drive and Sunfield Road following the July 8, 2013 severe weather event.

The objective of this study is to develop the preferred alternative solution to provide long term stabilization for a number of properties identified to be at risk on Appletree Court. Through this study, a geomorphic assessment was undertaken in order to fully characterize the watercourse to identify any existing or future anticipated risk to public safety, property, and infrastructure from riverine erosion within the study limits.

Residents and other interested parties are invited to attend the second Community Liaison Committee (CLC) meeting to provide feedback on the preferred alternative solution and to discuss next steps in the process. You will have the opportunity to ask questions, speak with project staff, and provide your input in the planning and design process. Meeting details are as follows:

**Tuesday September 27, 2016  
7:00 PM – 9:00 PM  
Barbara Frum Library – Meeting Room A  
20 Covington Road, Toronto, Ontario**

TRCA invites you to participate in this study, which is subject to Conservation Ontario's *Class Environmental Assessment for Remedial Flood and Erosion Control Projects* (amended 2013), the approved process for this type of undertaking. This process includes public and stakeholder consultation, evaluation of alternatives, and identification of measures to mitigate any adverse effects.

A Notice of Intent, formally initiating the Class Environmental Assessment process, was published in the North York Mirror on September 17, 2015. First CLC meeting was hosted for members of the public and interested stakeholders on January 21, 2016.

**Please RSVP to confirm your attendance by 12:00 noon on Monday September 26, 2016.**

If you have any additional inquiries or are interested in receiving further information related to this project, please contact the Project Coordinator by one of the methods below:

Courtney Rennie  
Project Coordinator, Engineering Projects  
Toronto and Region Conservation Authority  
1 Eastville Avenue, Toronto, Ontario, M1M 2N5  
(416) 392-9690  
crennie@trca.on.ca

TRCA intends to proceed with the implementation of this project pending the receipt of all necessary funding and approvals.

Dated: September 14, 2016
