SUBMISSION REQUIREMENTS

Each application must be accompanied by the appropriate fee as noted on the TRCA administrative [Fee Schedule](#) for permitting services, as may be amended. Applications will not be deemed complete until the fee is paid in full.

A. Digital submissions can be sent via file sharing service or emailed to the [Planner](#) directly. TRCA permits are received and processed digitally and must be received in pdf format (unlocked) via either a file sharing service or e-mail to the TRCA Planner. One hard copy will be accepted if necessary, to accommodate those who are unable to submit digitally.

- Completed and signed permit application form
- Application fee
- Covering letter, which outlines the proposal, provides contact names and describes the preliminary consultation and a list of all submission materials
- Property location/key map
- Legal survey
- Plans

TRCA will determine whether your application is complete within 14 days (minor applications) or 21 days (major applications) of submission. TRCA will comment on your complete application or issue your permit within 21 days (minor applications) or 28 days (major applications) of confirmation of a complete application. Please refer to the checklists and guidelines in the Planning and Development [Procedural Manual](#) for details. Please note that additional information may be required (e.g., geotechnical study, cross-section details, elevation plans, drainage details before and after development, etc.)

B. If an agent is submitting an application on behalf of the property owner, the attached landowner authorization form must be completed.

NOTICE OF COLLECTION

Pursuant to the *Municipal Freedom of Information and Protection of Privacy Act*, the personal information contained on this form is collected under the authority of the *Conservation Authorities Act*. This information is used to assess applications and, where approved, issue the Development, Interference with Wetlands and Alterations to Shorelines and watercourses permit. Information submitted as part of this application may be disclosed to government and municipal agencies for review and comment, or to members of the public through the freedom of information process. Questions about the collection of information should be directed to the information and privacy officer, Toronto and Region Conservation Authority, tel: 416-661-6600.

Any false or misleading statement made on this application will render null and void any permission granted.

I, the Owner, _____ of _____
(Print Name) (Corporation, if any)

Solemnly declare that to my best knowledge and belief, all of the above information, plans and submissions to be true, valid and current. I further accept the aforementioned inclusions, terms and conditions to be binding upon the registered owner(s) of the property and all assigned agents, contractors and/or constructors acting on behalf. My signature acknowledges the right to exercise binding authority.

***Signature or written authorization from the Owner is mandatory.**

PERMIT REVIEW PROCEDURES

TRCA staff will assess your application to determine if the control of flooding, erosion, dynamic beaches, pollution, or the conservation of land will be affected by the proposed works in accordance with TRCA's programs and policies.

For major applications, recommendations will be forwarded to the Executive Committee, who will decide whether to approve or refuse the application. All other permit applications are delegated to designated staff for processing

and authorization and are reported to the executive committee for information purposes. Delegated permits are non-complex permissions, (e.g., Standard Permits, Minor Works permits, etc.) Consistent with approved TRCA policies and procedures and issued for a time period of two years or less.

If staff is recommending refusal of the application and the owner wishes to proceed with the proposal, the Executive Committee will convene as a Hearing Board to consider the application. You will be notified of a hearing date which you and your agent may attend. Upon reviewing information provided by TRCA staff and the owner/agent, the Hearing Board will make a decision. If refused, the applicant will be notified of the reasons in writing. Within 30 days of receipt of the notification, the owner may appeal the decision of the Hearing Board to the Mining and Lands Tribunal who may dismiss the appeal or grant permission.

For further information on the legal details of these procedures, please refer to the *Conservation Authorities Act* and Ontario Regulation 166/06, as amended, on the government of [Ontario's e-laws website](#) you can also consult the TRCA Executive Committee [Hearing Guidelines](#).

PERMIT CONDITIONS

Under section 28(3) of the *Conservation Authorities Act* and sections 3 and 6 of Ontario Regulation 166/06, as amended, TRCA has the ability to apply conditions to a permit as it relates to section 28(1) of the Act regarding alterations to watercourses and wetlands, and to development where the control of flooding, erosion, dynamic beaches, pollution, or the conservation of land may be affected.

All conditions imposed upon a permit are legally binding. The legislation provides TRCA the ability to cancel a permit if those conditions are not met and offers the permit holder the opportunity at a hearing to show cause as to why the permit should not be cancelled.

The Act also identifies that it is an offence to contravene the imposed terms and conditions of a permit and provides TRCA the ability to initiate legal proceedings in the event of non-compliant related issues.

By signing this application, consent is given to the inclusion of the following permit conditions on the permit should approval be granted. The permit holder also agrees to comply with the terms and conditions as imposed.

1. The Owner shall strictly adhere to the approved TRCA permit, plans, documents and conditions, including TRCA redline revisions, herein referred to as the "works", to the satisfaction of TRCA. The Owner further acknowledges that all proposed revisions to the design of this project that impact TRCA interests must be submitted for review and approval by TRCA prior to implementation of the redesigned works.
2. The Owner shall notify TRCA Enforcement staff 48 hours prior to the commencement of any of the works referred to in this permit and within 48 hours upon completion of the works referred to herein.

3. The Owner shall grant permission for TRCA staff, agents, representatives, or other persons as may be reasonably required by TRCA, in its opinion, to enter the premises without notice at reasonable times, for the purpose of inspecting compliance with the approved works, and the Terms and Conditions of this permit, and to conduct all required discussions with the Owner, their agents, consultants or representatives with respect to the works.
4. The Owner acknowledges that this permit is non-transferrable and is issued only to the current owner of the property. The Owner further acknowledges that upon transfer of the property into different ownership, this permit shall be terminated and a new permit must be obtained from TRCA by the new owner.

In the case of municipal or utility projects, where works may extend beyond lands owned or easements held by the municipality or utility provider, landowner authorization is required to the satisfaction of TRCA.

5. This permit is valid for a period of two years from the date of issue unless otherwise specified on the permit. The Owner acknowledges that it is the responsibility of the owner to ensure a valid permit is in effect at the time works are occurring; and, if it is anticipated that works will not be completed within the allotted time, the Owner shall notify TRCA at least 60 days prior to the expiration date on the permit if an extension will be requested.
6. The Owner shall ensure all excess fill (soil or otherwise) generated from the works will not be stockpiled and/or disposed of within any area regulated by TRCA (on or off-site) pursuant to Ontario Regulation 166/06, as amended, without a permit from TRCA.
7. The Owner shall install effective erosion and sediment control measures prior to the commencement of the approved works and maintain such measures in good working order throughout all phases of the works to the satisfaction of TRCA.
8. The Owner acknowledges that the erosion and sediment control strategies outlined on the approved plans are not static and that the Owner shall upgrade and amend the erosion and sediment control strategies as site conditions change to prevent sediment releases to the natural environment to the satisfaction of TRCA.
9. The Owner shall repair any breaches of the erosion and sediment control measures within 48 hours of the breach to the satisfaction of TRCA.
10. The Owner shall make every reasonable effort to minimize the amount of land disturbed during the works and shall temporarily stabilize disturbed areas within 30 days of the date the areas become inactive to the satisfaction of TRCA.
11. The Owner shall permanently stabilize all disturbed areas immediately following the completion of the works and remove/dispose of sediment controls from the site to the satisfaction of TRCA.
12. The Owner shall arrange a final site inspection of the works with TRCA Enforcement staff prior to the expiration date on the permit to ensure compliance with the terms and conditions of the permit to the satisfaction of TRCA.

13. The Owner shall pay any additional fees required by TRCA in accordance with the TRCA Administrative Fee Schedule for Permitting Services, as may be amended, within 15 days of being advised of such in writing by TRCA for staff time allocated to the project regarding issues of non-compliance and/or additional technical review, consultation and site visits beyond TRCA's standard compliance inspections.

These conditions are being requested to ensure compliance with the approved plans and reports and to ensure that the control of flooding, erosion, dynamic beaches, pollution, or the conservation of land will not be affected.

Application-specific permit conditions may also be required in certain situations. You will be advised of any proposed application-specific permit conditions through separate correspondence from our office.

Should you object to the applied conditions, please provide a written rationale to our office. We will then contact you to discuss the permit conditions further. Should we not reach a satisfactory resolution, you will be given the opportunity to request a hearing before TRCA's executive committee.

For further information on permit conditions, the *Conservation Authorities Act* and Ontario Regulation 166/06, as amended, please consult the government of [ontario's e-laws website](#).

NOTES

1. By signing this application, consent is given to TRCA staff, agents, representatives, or other persons as may be reasonably required by TRCA, in its opinion, to enter the premises without notice at reasonable times for the purpose of considering a request for a permit, inspecting, obtaining information, and/or monitoring any and all works, activities and/or construction pertaining to the property in addition to the works as approved under cover of any permit issued by TRCA, and to conduct all required discussions with the owner, their agents, consultants or representatives with respect to the works.
2. Permits granted by TRCA do not replace building permits or any other permits or approvals issued through municipal offices or other levels of government. A permit under Ontario Regulation 166/06, as amended, does not constitute TRCA approval of any related *Planning Act* applications. Separate approval of all related applications must be obtained from the respective agency and TRCA
